

Jasminder Pal Singh

A founder building real apps with AI, from a small town in Punjab. With my team and my daughter, I post every day across three YouTube channels and Instagram: AI builds, team travel and office life.

#6 globally Official FlutterFlow Expert, 4 years running

Building software since 2012

Clients in 40+ countries

Apple App of the Day (US)

Founder, TeamWSP · Kotkapura, Punjab

Reach

500K+

lifetime views, all channels

27K+

views in the first week of Oct

5.3K

Instagram views in one day (5 Oct)

8

posts a day planned across 4 platforms

Figures from YouTube Analytics and Instagram Insights, 8 Oct 2026. Most views come from non-followers through Shorts and Reels recommendations. Audience: Punjab and wider India, plus Punjabi-speaking viewers abroad.

Channels

Zero Guy

YouTube · @JasminderPalSingh · English

1,008 subscribers · **500K** views · 299 videos

- AI tool demos and app building
- FlutterFlow tips, founder life
- Doodle and filter challenges made by my daughter

youtube.com/@JasminderPalSingh

WSP Travel

YouTube · @teamwspttravel · Punjabi

10K+ views · vlogs + daily Shorts

- Team trips: Kasauli, Dubai, UK

What I can make with your product

In my real workflow

A Short and Reel of me using it while building an app or running the team. Fits mics, keyboards, laptop stands, AI and developer tools.

Tested on the trip

Carried and used on a real WSP Travel trip, with its moment in the vlog and its own Short. Fits bags, power banks, adapters, dash cams and stays.

Setup → twist Reel

Our most shared format: one setup line, a cut, then the payoff. 10–25 seconds, made to be rewatched and sent to friends.

Explainer

A 25–30 second explainer of a new feature or tool, in English for Zero Guy and in Punjabi for WSP Travel. Example: the Instagram Muse explainer linked below.

Recent work

₹3,300 Kasauli room, with real prices

Instagram Reel · 2.4K views · 22 shares

Instagram Muse, Meta's AI agent, explained

Zero Guy Short · English explainer

The same Muse explainer in Punjabi

Instagram Reel · Punjabi version

Office on wheels: laptops in the car

Instagram Reel · work + travel

How a collab works

- You send the product. No fee for a first collab.
- At least one YouTube Short and one Instagram Reel, on the channel that fits the product, within 3 weeks of delivery.
- Honest use and an honest opinion. I don't promise a positive review, and I only post about products I'd actually use.
- Your link and handle in the description and caption. Every collab is labelled as gifted under ASCI rules, using YouTube's paid-promotion label and Instagram's Paid partnership tag.
- You get the clip files and can repost them with credit.
